Grade 5 social studies

We will be working on United States Chapter 4 this week. Our discussions will be about the Tlingit Indian tribe. The tribe's production of art and its use of technology will be our focus. For these purposes, we will be using our United States books from pages 81 through 87. We will also begin learning the names of the United States Presidents. This activity will be ongoing throughout the month.

Grade 6 social studies

Students have concluded construction of their pyramids. These will be on display during open house on Sunday. This week comparisons will be made between the method of construction of the Egyptian pyramids and our "sugar cube" pyramids. We will also talk about how the Egyptian rulers expanded and governed their empire. Our text will be used from pages 80 through 87.

Grade 6 Family Life

Respect is our topic this week. We will define the word "respect." We will discuss reasons to show each other respect. Then, ways that respect can be practiced will be reviewed. The family life book will be used from pages 47 through 50.

Missions

Mission money for January will be collected on Tuesday, January 31. Thank you for your generous support!

The Action Group

Recycling posters will be worked on. You will see these posters hanging in the halls very soon!
